Medium Priority Functionality Defects: 'Settings' Buttons Not Working

Defect ID: 001

Descriptive Defect Name and Type:

Defect Name: "Settings" Button Functionality Not Working

Defect Type: Functionality

Defect Severity: Medium

Defect Priority: Moderate

Defect Status: Open

Detailed Description: The "Settings" button functionality is not working as expected. When users attempt to access the settings menu, the system fails to respond, and the settings options are not displayed.

Steps to Reproduce the Defect:

1. Log in to the application with valid credentials.
2. Navigate to the dashboard or the section where the "Settings" button is present.
3. Click on the "Settings" button.
4. Observe that the system does not respond as expected, and the settings menu is not displayed.

Additional Information:

- Browser/Platform: Chrome
- This defect is of medium severity and priority as it impacts a non-critical functionality of the application.
- Users can still use other essential features of the application even though the settings button is not working.
